ORGANIZER AND LOCATION

Organizer and Location

HISTORY

MajFlaj is an event for RC controlled models, organized for the fourth time, by the RCSK aeromodelling club.

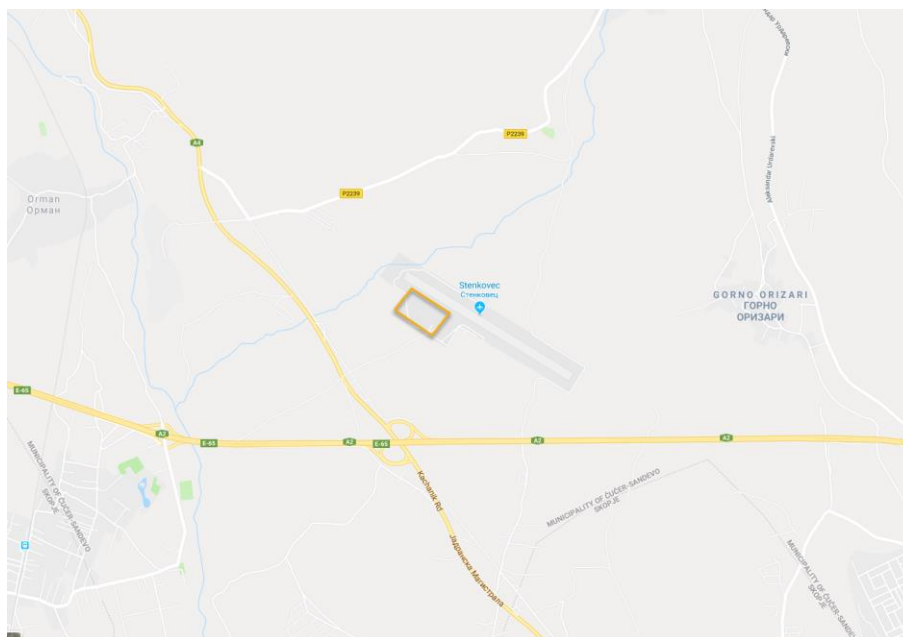

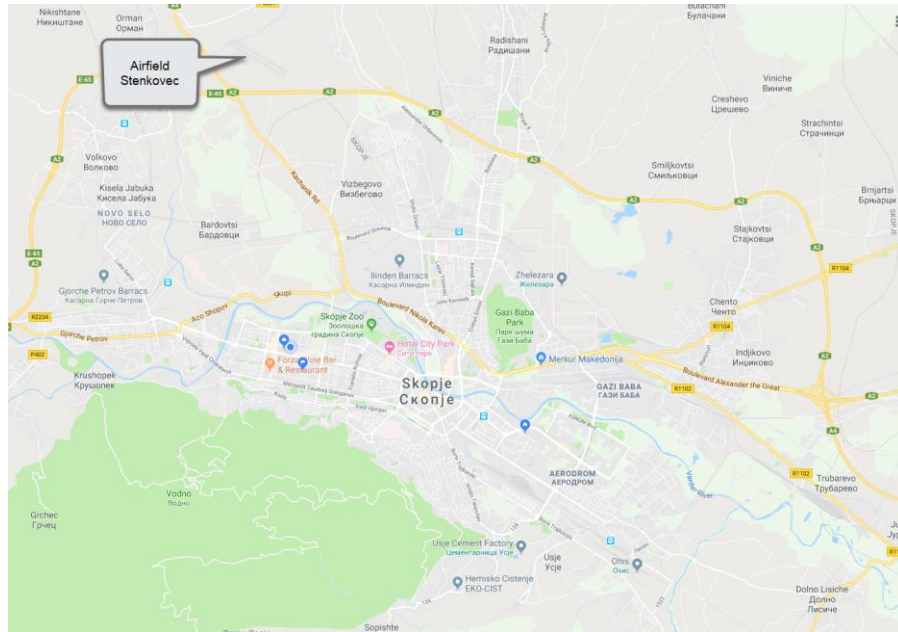

The Drone Race is an integral part of the MajFlaj event, with growing number of participants and countries.

ORGANIZER AND LOCATION

LOCATION

MajFlaj event is organized on the local airfield Stenkovec, located north-west of Skopje.

Event

International revue meeting of the enthusiasts and exchange of the experiences with presentation of the radio controlled aircraft models – MAJ FLAJ – Stenkovec, Skopje, Macedonia.

The event is open to public where all categories of the radio controlled aircraft models will be promoted, the achievements of the Macedonian pilots will be presented, the experiences will be shared, the exchange of the experiences of the international pilots and their achievements of the international competitions will be presented.

VISION: To make the radio controlled aero sports one of the most recognizable sport and hobby in the region and strength the long term relation with International and Regional Clubs and their members.

MISSION: To deliver an unique experience for all those passionate about extraordinary sports and hobbies while promoting the healthy life style benefits of it as well as enhancing the country's international profile with a main goal of becoming one of the best international RC aero sport events in the field.

Rules

GENERAL RULES

The 2018 editions of the following documents are applicable:

- FAI General Section and FAI Code of Ethics
- FAI Sporting Code Section 4 Aeromodelling - Volume F9 Drone Sport (Edition 1st January 2019) updated 28 January 2019

(link https://www.fai.org/sites/default/files/documents/sc4_vol_f9_dronesport_19-2.pdf)

RADIO CONTROL EQUIPMENT

The recommended frequency band is 2,4 GHz. Any 2.4 GHz radio control equipment may be used. Competitors may also be authorized to use other equipment, such as for example TBS Crossfire module (868 MHz and/or 433 MHz).

Competitors will be requested to mention the frequencies they will use prior race.

VIDEO SYSTEM

The video system is based on 5.8 GHz frequencies. The VTX should be a quality one, with 25mW output power. The power and the spread channel on the band could be measured ahead of each race.

If requested, the organizer can arrange compliant VTX and antenna.

LED LIGHT UNIT

LED lights are allowed, but are not necessary for the race.

BATTERIES

According to 2019 FAI rules, 6 cell batteries with up to 4.25V per cell (total 25.5V) are allowed. Battery charge could be measured ahead of each race.

ELECTRONIC TIMING SYSTEM

The organiser will use Immersion RF LapTimer, therefore no additional timing systems on the drones are necessary.

RULES

PROTEST

Any protest must be presented in writing and must be accompanied by a deposit fee of 50 Euros. The deposit is returned only if the protest is upheld.

FAI SPORTING LICENCE - FAI DRONE PERMISSION

Each competitor must possess a valid FAI Sporting License.

In case of a missing license, competitors can register online at <https://droneracing.aero/>

TRAVEL, ACCOMMODATION, TRANSPORTATION AND FOOD

Travel, Accommodation, Transportation and Food

Travel

Skopje international airport has flights from many European capitals, daily flights with Vienna, Zurich, Ljubljana, Istanbul.

TRANSPORTATION

Best transportation is with taxi, it is very cheap. Check with hotel receptions for ordering a taxi ride.

- Taxi from Airport to Skopje City Center: approx. 20 EUR
- Taxi from Skopje City Center to Stenkovec Airfield approx. 12 EUR
- 1 EUR = 61.5 MKD (can be between 61MKD to 62MKD)

Car rentals are also available throughout the city and at the airport.

ACCOMODATION

There are hotels in the city, can be booked on booking.com with price ranges between 30-60 EUR for a double room.

FOOD

There are many good restaurants in the city center, the food is nice and cheap.

During the event at the Stenkovec airport there will be booths with sandwiches and drinks.
