Austrian Pilots Soar to Victory at 2024 FAI F3F World Championship for Model Gliders

Limoux, France, 14 October 2024 – The 2024 FAI F3F World Championship for Model Gliders in Limoux, France (6-12 October) saw an impressive display of skill and teamwork by the world's best aeromodelling pilots. Austria dominated the competition, clinching top honours in both individual and team categories.

Lukas Gaubatz of Austria secured the individual championship title with an outstanding performance. France's Sebastien Lanes and Spain's Ignacio Elizondo Casado rounded out the podium, claiming second and third places respectively.

In the National Team category, Austria's exceptional showing continued, as they claimed the top spot. French pilots demonstrated their strength on home soil by taking second place, while Norway's performance earned the team a third position.

Organised by the French Aeromodelling Federation with the support of local authorities and sponsors, this event brought together 55 pilots from 19 countries, showcasing their skills in piloting radio-controlled slope soaring gliders.

With the guidance of the jury of the FAI Aeromodelling Commission (CIAM), led by Tomas Bartovsky as the Jury President, and the efficient leadership of Contest Director Andreas Fricke, the stage was set for an unforgettable competition.

Importance of content sharing & collaboration

Information Technology - Objectives:

- Keeping fixed costs low. Improving efficiency. Maintaining service quality.
- Adapting to smaller Secretariat staffing

1. DRUPAL

- v7 -> v 10 (phase 1)
- Phase 2 budgeted for FY 2025.

2. eNavigator evolution. User experience. Payment interfaces.

3. IGC Ranking List AMS Integration

- partial carry-over 2023 -> 2024. Secretariat concluded in 2024.
- Pending IGC implementation.

4. Extranet development: new SL-layout tool/editor

5. AMS/Payhub two-way reconcilliation: AMS <-> Payhub <-> RmA <-> Bank

6. Payhub evolution

- Page-management, reporting.
- Invoice creation/payment reconcilliation.

7. Record tool

- 1st phase: preliminary claim submission: development finalised, pending 'going life'.
- 2nd phase: Dossier supporting document management wip.

SERVER INFRASTRUCTURE OVERHAUL

Experience so far:

- Performance increase multiple fold
- Nightly backups of all the services
- Possibility to react to hardware problems better. One disk hot-swap so far
- Expenses will be covered by reduced hosting fees

Next:

- Update local office servers and add them to the new server farm
- Install new UPS (Uninterrupted Power Supply)

Monitoring:

- Metrics per server and per container
- Uptime monitoring. Public uptime page:

HOW TO SET A RECORD

The following information is valid for World and Continental Records of all sports and disciplines.

- ▶ Check on the FAI record pages what the best previous performance is, if any, for the record you would like to set. Do not forget to check the record claims pending homologation.
- ▶ Review the FAI Sporting Code, General Section and relevant Specialised Section, to get an understanding of the rules and documentation requirements.
- ▶ For the definition of the course used for your record attempt, you will need the exact distance given by the [World Distance Calculator](#).
- ▶ Obtain an FAI sporting license from your [National Airsport Control Organisation \(NAC\)](#) if you do not already hold a valid one. Please note that the FAI Sporting Code - General Section, Item 8.1.3 says: A Sporting Licence shall only be considered issued and valid, if the holder is listed on the [FAI Sporting Licence database](#) by the NAC that is issuing the particular Sporting License.

WHAT IS A TUE?

As a competitor, you may have an illness or condition that requires a particular medication. If this medication contains a substance on the WADA [Prohibited List](#), you may be granted a Therapeutic Use Exemption (TUE) giving you permission to take it.

TUEs can be granted by the FAI or by National Anti-Doping Organisations. FAI automatically recognises TUEs issued by National Anti-Doping Organisations.

WHO NEEDS A TUE?

Any athlete participating in an FAI-sanctioned event (any event registered in the FAI Calendar) and who may therefore be subject to doping control must request a

FUTURE ROLE OF IFs

History of ARISF Members

The value and purpose of ARISF lies in its contribution to International Sports Federations (IFs) whose sports are not a part of the Olympic Programme. Its membership is inclusive of all unique structures and narratives, ranging from administrators of a singular discipline to multi-sport organisations.

Founding Years of ARISF Members

As an association of International Sports Federations (IFs), it is only natural that its subjects existed before its formation. Within the current 39 members, many date back decades or even a century into the past while some others were founded years after the establishment of ARISF.

Figure 4: Timeline of Founding Years of Current ARISF Members

SAFEGUARDING

Safeguarding refers to the measures, policies, and practices in place to protect individuals, especially vulnerable groups like children and at-risk adults, from abuse, harm, neglect, and exploitation. In various contexts, such as sports, education, healthcare, and social services, safeguarding ensures safe environments and minimizes risks to physical, emotional, and psychological well-being.

In an organisation like FAI or in sports settings, safeguarding involves creating frameworks to protect participants from harm, including training staff and volunteers to recognize signs of abuse, implementing robust reporting systems, and establishing clear codes of conduct to prevent abuse.
