

PROPOSED AMENDMENT TO FAI GENERAL SECTION

CHAPTER 7 INTERNATIONAL RECORDS

Issue Raised by: FAI Executive Board (during 2016 CASI meeting held in Bali, Indonesia)

Rationale: Before FAI headquarters can approve a new record task that has been introduced by a commission, it must be made aware of how the commission expects the performance to be calculated. The following proposal is an attempt to ensure that performances approved as international records have been calculated as it was intended by the commission and to ease the burden on FAI headquarters during its review of first-time records. It will also alert FAI to any changes that may be needed to the records database structure.

Current Wording
[none exists]
Proposed Amendment (to be inserted between 7.1.2 & 7.1.3 and renumbered)
<u>ASCs shall notify FAI Secretariat of all new international records introduced in their Specialised Sections of the Sporting Code. The notification must include an example of how the performance is to be calculated.</u>
If Adopted Will Read
ASCs shall notify FAI Secretariat of all new records introduced in their Specialised Sections of the Sporting Code. The notification must include an example of how the performance is to be calculated.
